This is a gorgeous shot gun that my dad bought over 40 years ago. He had sold I believe about 15 different guns to be able to get this one. It is a very beautiful , well maintained piece of work, please take a look at all the different pictures provided, it comes with an extra barrel that has a poly choke on it, which the different settings , such as, open cylinder, improved cylinder, modified, and full choke, these are all labeled in 24 Kt. Gold. A very unique feature about this shotgun, is that the value of it, is actually 50% higher, because of it being a 20 Gauge, I had taken it down to Atwells sporting goods in Painesville to have it appraised. I was thinking about having it reblued, but was told, that would actually decrease the value of it by 50%, so I will just leave it be, in it's original patina state.
